Art Unit: 2834

***Allowable Subject Matter***

Claims 16-43 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art fails to show or fairly suggest a flexure system with two coupled flexure components, each of which has joints. The coupling and actuated motion along specific axes defines a pivot point. When actuated to cause motion and that motion excludes movement of a body along a subset of the orthogonal axes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Direct inquiry to Examiner Dougherty at (571) 272-2022.
